YOUR VOYAGE OF DISCOVERY WITH COCKBURN HOLDSWORTH

THE VOLKSWAGEN BASED VISTA RANGE

The Vista from Cockburn Holdsworth uses the best of modern design and craftsmanship to incorporate into a compact motor caravan those little luxuries that make for relaxing and stress free touring.

Powered by a choice of the latest generation of Volkswagen engines, the short wheelbase Vista is streets ahead of its rivals in featuring a toilet and washroom area. And the innovation does not stop there. A sliding partition separates the washroom and dressing area of the Vista from the lounge so you can create a private space.

Along with such state-of-the-art details, the Vista boasts Volkswagen's engineering know-how and Cockburn Holdsworth's traditional quality, craftsmanship and finish. With a host of safety features, the Vista, like any Volkswagen, has endured as stringent a crash test programme as any in the world.

Security is matched by comfort inside. The Vista's two single beds are both over six foot long.

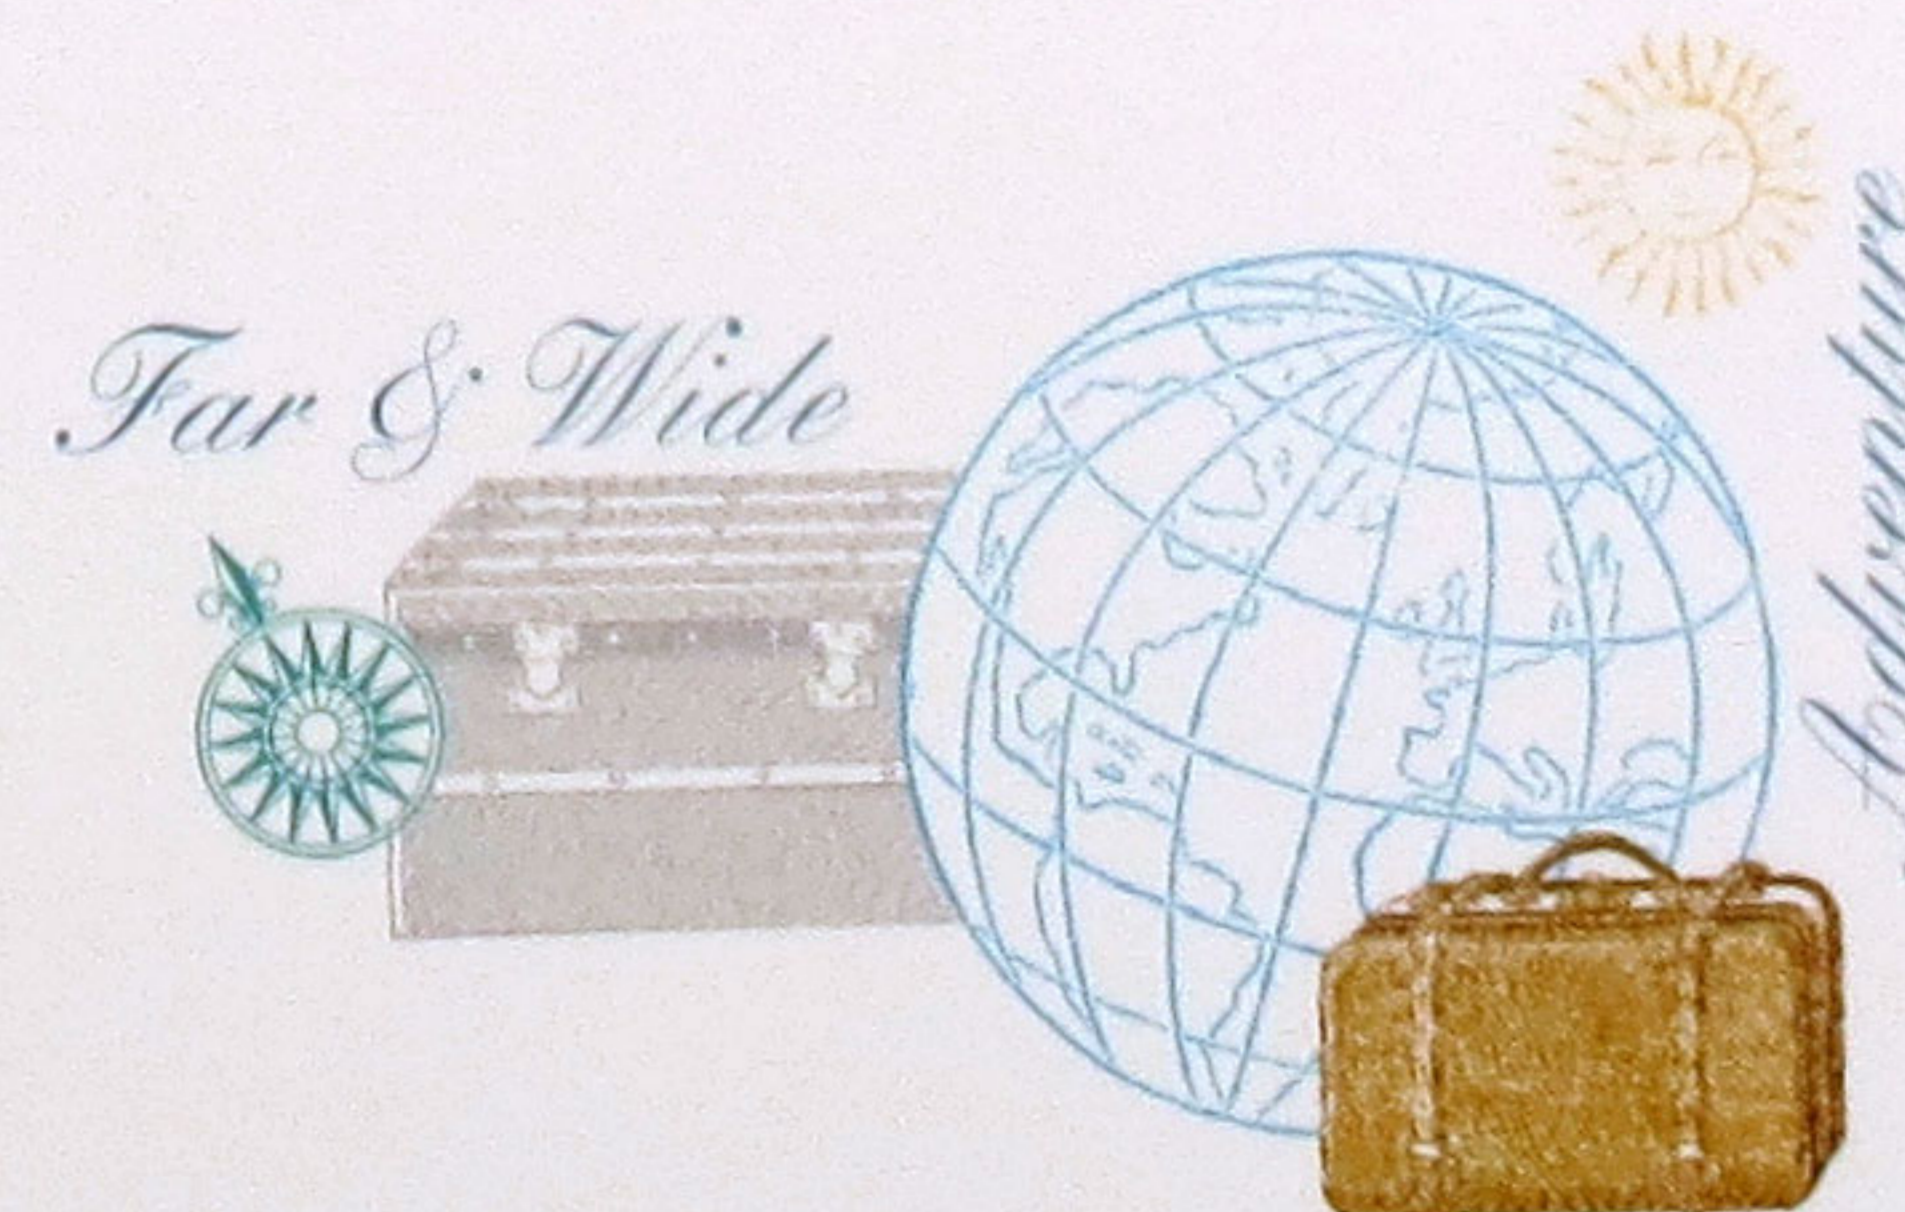

Thoughtful design means that even when they are made up, you can walk through to the rear of the Vista to use the kitchen and washroom facilities.

The timber framed ash doors are complemented by colour coordinated fabrics, while in the neat and practical kitchen everything is to hand. A two burner grill and hob, sink and fridge are accompanied by plenty of storage space - one of the hallmarks of Cockburn Holdsworth - and a full set of crockery for three.
