

**TOP VAN
CONVERSION
Earls Court 1991**

THE WINNER

It surprised no-one when the Vision motor caravan from Richard Holdsworth's Earls Court Caravan Show.

Based on the superb new Volkswagen Transporter, the Vision is a brilliant conversion with outstanding features that immediately caught the eye of the judges.

Vision is the only Volkswagen motor caravan to offer a choice between single or double beds; full walk-through facility from front to rear and storage that makes a mockery of the new Transporter's compact exterior dimensions.

And then there is the kitchen. As one judge put it: "The Vision has it all, with three burners and grill and modern slide-out trays, racks and drawers - it's better equipped than many coachbuilts twice its size".

No wonder Vision took the top honours. Best Kitchen in any van. Runner-up for best motor caravan in the whole show, and best Van Conversion by a mile.

SAFE TOO

But Richard Holdsworth doesn't just lead in terms of glittering prizes. Safety is very much in their minds when they design and build all their vans.

Naturally, Vision (and Villa too) has been created in conjunction with Volkswagen engineers in Germany to meet the manufacturer's stringent requirements, while Vision and Villa are like all Richard Holdsworth vans - built to the SMMT Code of Practice for design and construction. But Vision and Villa go one further for they are the **only** VW recognised converters in the country to have their rear caravan seats subjected to the ultimate safety test - the crash test.

Villa and Vision are also available with Firetrace - the automatic fire extinguisher system that gives peace of mind whether the vehicle is occupied or not, night and day.

The all new Vision from Richard Holdsworth - winner in more ways than one.
